H. B. Kittinger's Name Forged to Two Checks for \$138

The Farmers National Bank of Madisonville, received two large checks lately, which were written last month and with H. B. Kittinger's name signed to them, who has been dead for six months. The checks were made out on the business check of M. Kittinger when he was in the grocery business, but he had closed his account with the Farmers National Bank some time before his death.

The checks were cashed at Jackson, Miss. It was noted very early as the hand writing in no way resembled that of M. Kittinger.

The check book he had used before his death was found and six blank checks had been taken from the middle, and the numbers on the two forged checks corresponded to two of the checks taken.

The Mississippi bank will have to stand the loss, and detectives will start to work on the case right away.

The ice bridge that blocked the river channel between the cataract and the upper steel arch bridge below the falls for three weeks past, broke at noon Sunday, taking with it Mr. and Mrs. Eldridge Stanton, of Toronto, and Barrell Heacock, of Cleveland, Ohio. The bridge was considered perfectly safe, being in places from 60 to 80 feet thick, about 1,000 feet in length, and in some places a fourth of a mile wide.

WHAT THE FARMER CAN DO FOR CORN

Statistics for the state of Ohio indicate that it will take 450,000 bushels of seed corn to plant the corn of that state, but that of the samples of corn received from many counties, 20 per cent of the samples would not grow. It is further estimated that a bad ear of corn represents a loss of three bushels in a yield, which would make the total loss from defective seed for that state on this basis of selection 21,000,000 bushels, or a money loss of \$8,400,000 from bad seed. For the entire country, the seed corn requirements will be over 48,000,000 bushels. Those with a mathematical turn of mind may figure out the total loss on the same basis. Certainly such a proportion of loss, fearful in wastefulness in the aggregate, or even in the loss occasioned by one bad ear, is worth the most careful attention of all our farmers. And where can there be any excuse for it in these days of great enlightenment in the simple and easy methods for selecting absolutely reliable seed corn through the use of the testing boxes, germinating seed from every year, and the other little details that can so easily be hand-

LIBERALIZING OUR LAND LAWS

There is a movement in Congress to liberalize our land laws to encourage American farmers to stay on their own soil instead of migrating to Canada, where the inducements to settle are greater. Senator Borah and others who advocate this measure declare that a desirable class of American citizens are being driven to Canada at the rate of 100,000 a year by our stringent land laws. It is proposed to reduce the enforced residence on a homestead from five years to three and to permit the homesteader to absent himself from his claim six months every year. In addition to this it is proposed to open for settlement some 18,000,000 acres of public lands that have heretofore been withheld because of their supposed oil deposits. Now the plan would be to reserve the oil privileges and release the surface to agriculture. Certainly these measures should meet with general approval by the American public, provided they are properly safeguarded, and provided further the condition imposed may not require that a citizen to take up such public lands will not need to have a private fortune before he or she can acquire a quarter section.

HOW OLD PEOPLE

May Prolong Their Lives
At an advanced age waste is more rapid than repair. The organs act more slowly and less effectively than in youth. The circulation is poor, the blood thin and watery, the appetite poor and digestion weak.

We want to say to every aged person in this vicinity that Vinol, our delicious cod liver and iron tonic (without oil) will prolong life. It creates an appetite, aids digestion and makes good blood. In this natural manner Vinol rotards waste and replaces weakness with strength, giving new life to the worn system.

If people in this vicinity only realized how Vinol invigorates old people we would not be able to supply the demand.

Try a bottle of Vinol with the understanding that your money will be returned if it does not help you.

Ever alert to serve our customers with the best values at the lowest prices, we have kept pace with the Cotton Market and made our purchases for this Great White Event when the merchandise was at bottom prices.

As ever "Quality" has been the watchword with us in buying for this Sale and whether it is a piece of 5c Lace or \$2.50 Embroidery, the same care has been exercised in its selection.

We lay special stress on the make and fit of our Muslin Underwear. Defects can be hidden in Shoes, Clothing and other Outer Garments, but not so in Muslin Underwear. It can be examined inside and outside. We invite this critical examination. Ours is the Sanitary Made Kind.

A careful reading of every item priced in this advertisement will be the best way to convince you that **High Quality and Low Prices** have been combined in an effort to serve you in the most economical way.
